

General Business License Information

General Requirement: Any activity engaged in that provides goods or services to the public within the unincorporated area of the County of Imperial.

Pursuant to statute, “No person, whether individually or as an agent of another, shall engage in any business enterprise in the unincorporated portion of the County of Imperial without having first obtained a license therefore from the County Treasurer-Tax Collector”.

However, as of December 2, 2014 a resolution was passed by the Board of Supervisors that provides for exemptions for certain types of businesses. That resolution exempts businesses engaged in “Agricultural Operations”, landlords who lease their land to others and do not conduct any other business, and some businesses that also operate in one of the incorporated cities within Imperial County and have a current business license from that city. Special Note: In the case of temporary or mobile vendors, a business license from another city does not exempt them from this process and an Imperial County General Business License is required. Proof of any of these exemptions shall be required. If you have questions as to whether your particular business qualifies for any exemptions, please contact the Treasurer-Tax Collector’s office at the number shown below.

- Due to Federal laws or statutes, the following exemptions also apply:
 - 1) Businesses that are doing internet only sales do not have to have a county business license.
 - 2) Businesses that are only selling products or providing a service to casinos or other tribal businesses located on tribal land do not have to have a county business license.
 - 3) Businesses that are operating on tribal land that is leased from a tribe in the unincorporated areas of the county do not have to have a county business license.
